Malmgren's Clothes

Worn by Companion Moscow, July 23.—(A)—Intense interest in the fate of Dr. Finn Malmgren, Swedish meteorologist on the Italia expedition, has been stirred in Moscow by reports of the rescue of Captains Alberto Mariano and Filipo Zappi, his

companions.

The newspaper Verchernaya
Moskva this morning published a dispatch from its correspondent aboard the rescue ship Krassiu, who included among unexplained circumstances the fact that Captain Zappi, in addition to his own clothes, wore Dr. Malmgren's suit. A dispatch from the correspondent of Tass, soviet news agency, aboard the Krassin, said that when

Every Three Minutes Somebody's Home Burns!

Don't risk yours-Build with Lone Star Concrete

AN average of 175,000 homes catch fire every year in the United States! This means a home every three minutes. From seventy-five to ninety per cent of this loss could be prevented by building with concrete.

If you are planning to build, don't subject your home to the ever-present hazard of fire. Safeguard yourself and your family by building at least the first floor of concrete. Remember, seventy out of every hundred house fires start in the basement. Concrete lasts longer than ordinary materials, is sanitary and beautiful; it saves upkeep expense.

And, remember, the better the cement the better the concrete. Before you buy cement, simply ask your Building Material Dealer these four questions—the same questions architects, engineers and contractors ask when they buy cement. We give you the Lone Star

- 1. Does the Cement exceed U.S. Government standards?
- Every shipment of Lone Star Cement is guaranteed in writing to exceed U. S. Government standards. The Lone Star dealer, in turn, guarantees every bag to you.
- 2. How is the cement made?
- Lone Star Cement is made by the famous International Wet-Blending Process, a process which has made cement-making an exact science and has established a new high standard of cement quality.
- 3. Is the cement uniform, bag for bag? The chemical content of Lone Star Cement varies less than 2/10 of 1% in millions of bags-a new high standard of uniformity.
- 4. Are you certain to get delivery when

The 13 mills of the International System, with a capacity of 20 million barrels a year, assure "on-time" delivery, no matter how great the emergency.

It will pay you to buy cement on the basis of this comparison. Concrete will save you money. Lone Star concrete will save you more.

The facilities of our Research Department, directed by Prof. Duff A. Abrams, are available to all users of cement. Write us your problems

next Monday for an extended trip through Alaska. His church has given him leave of absence for the journey, and he will go to the real frontiers of the arctic regions. He plans to be back in September in time for the opening of his new church, which is now being completed and furnishings being installed.

The people of this section are very much interested in Dr. Lipham's proposed journey, and he will write humanistic stories of this journey, as he has done of many other journeys he has made. Dr. Lipham has designed and built and financed the greatest church building of this area, and the people are justly proud of it. The church will celebrate its centennial with a jubilee when the cathedral is opened in late September, at which time Bishops Candler and Beauchamp and other great clerics will appear on the program. Dr. Lipham is held in high esteem here, and his writings are read practically throughout the nation.

Anti-Smith Tags In Waycross Irk IN MOTOR CRASH Unknown Thief

Waycross, Ga., July 23.—(P)—The life of an Anti-Smith club leader in Waycross is not one of the finer

pleasures, if one is to observe a "communication" appearing over the signature of Dan T. Cowart in the Waycross Journal-Herald.

Mr. Cowart, a former mayor of Waycross, is also head of the Anti-Smith club here. Recently he awakened at his residence to note the disappearance of two automobiles from his yard. One bore the legend, "We Are Against Al Smith." The machine was found near his residence, but the Anti-Smith sign had been removed. The other car, bearing "Vote for Hoover," has not been recovered, his statement in the Herald-Journal said.

Marietta, Ga., July 23 .- (Special.) Marietta, Ga., July 25.—(Special)
The idea of a complimentary second term to governors serving their first term in Georgia was denounced by Senator E. D. Rivers, candidate for the office, who termed it a "fallacy" in an address here today.

While Judge John S. Wood adjourned court today Senator E. D. Rivers discussed his candidacy for governor. He was introduced by Senator

HOME TREATMENT OF WEAK FOOT.

Pronated feet, static valgus, potential flat foot, weak foot, weak ankles, as the condition is variously known, occurs in young persons, children from 10 to 15 years of age, especially girls, and in too many cases is mal-treated through the advice of some

incompetent person.

The worst possible thing to do for this common trouble is to apply arch props or any form of support for the feet, either built in the shoes or otherwise. Yet this is the very thing misguided parents do to children who have the trouble. Some one is pretty certain to suggest that the child is getting "falling arches," and that is sufficient to send the dumb parent off in quest of the latest and most plausible thing in the way of props. This is just as logical and sensible as it would be to bind the child's arm in splints or to put his limb in a

any sanity in dealing with the feet. These exercises help to prevent and cure weakfoot: Practice walking tiptoe with the toes turned in as though you were pigeon toed. This is best if done barefoot or with soft shoes. 2. Practice walking on the outer

borders of your feet as though you were very bow legged.

3. Sitting, with feet free, practice lifting, tossing and catching a croquet ball, bowling ball or other large heavy between your feet, grasping it with the toes

4. Several times a day practice heel and toe drill. Stand erect, feet parallel or toeing in slightly. Slowly rise as high as you can on your toes, slowly lower your heels. Repeat from 4 to 30 times, according to your 4 to 30 times, according to your strength. Then from same starting ition slowly draw toes as far upward and inward as you can, stand-

again. Repeat this from 2 to 20 At all times when walking remember not only to keep the feet parallel and never toe out, but imagine there is a nail sticking up near the inner border of the ball or waist of the foot and you are compelled to walk with your weight on the outer border to avoid being hurt by the

Physicians sometimes apply an adhesive plaster retention dressing to keep the feet flexed, adducted and in-verted and permit free exercise for the development of the weak muscles. This is a temporary expedient and does absolutely no good of itself. It merely helps the patient to gain the benefit of corrective exercise. In no case should anyone other than a phy-

sician apply such a dressing to weak or potential flat feet. FIREMEN-PO-LICE GROUP INSURANCE PLAN AUTHORIZED

Refinery officials said the fire probably started from a railroad locomotive spark falling on the oily surface of the grassy lake which curves around the 40-acre refinery grounds like a horseshoe. A crew of nearly 150 men fought the blaze with chemicals and finally forced the flames back to the lake, from which they continued to rise, seemingly from the water, for several hours. The fire was visible as far away as downtown St. Louis, 40 miles southwest. The 'Big Six'

The necessity of traveling kept half of the Big Six idle yesterday, while Babe Ruth provided all the action for the other half. In addition to his fortieth home run of the season, Babe Ruth got a double in his four times at bat while the Yankees were dropping a game to the Red Sox and brought his average up two points to .316. He was still unable to move out of fifth place in the Big Six standing.

The other members of the Big Six who played yesterday, Paul Waner and Ty Cobb, failed to get a hit. Waner went to bat four times in the Pirates' victorious duel with Brooklyn.
His failure to hit cost him four points in his batting average, dropping to 366. But he is still far ahead of Frank Frisch in third place. Cobb went to bat only once yesterday as a pinch hitter for Hauser in the ninth inning but failed to connect in the pinch.

Elkins Challenges Decathlon Winner

Paris, July 23.—(United News.)—Major William Kennelly of the New York Athletic club said today that Fait Elkins, American decathlon star who was left off the Olympic team, would challenge the winner of the decathlon at the Olympic

games.

"Elkins is America's greatest athlete," Hennelly said, "and is ready to travel to any country to meet the Olympic decathlon winner. He is at Amsterdam continuing his training. This is what he has done recently: Ran what he has done recently: Ran the 100 meters in 12 1-5 seconds; broad jump more than 20 feet and made good time and distance in the other decathlon

The report that Elkins had a strained tendon was untrue. He merely broke a small blood vessel in bis leg."

C. Brumby Wins Jeffries? The gamblers were betting

Fairhaven, N. J., July 23.—With the "big circus" but a few hours away, a bulky, hairy man with a square, corrugated face, a beer-keg chest and grand piano legs, sat-on a rose-covered porch here in the soft peacefulness of a Jersey twilight and slowly told me the story of his life, his ambitions, his early heartaches and his late success.

When he had finished he gazed out over a wide green lawn, covered with trim whitewashed trees. His deep-set honest eyes gleamed with quiet determination.

I tried to visualize what it would mean to a handsomer, more aesthetic champion, not at all in love with his sport, who must face this relentless, Gibraltar-like fighting machine, bell after bell, for 15 rounds.

By JIMMY POWERS.

Jeffries? The gamblers were betting 3 to 1 on Fitz. No one figured the clumsy Jeffries had a chance. He was too slow, they said, just as I'm figured slower than the present champion. Net Jeffries won.

"What about Jeffries and Johnson? Everyone was betting 2 to 1 on Jeffires. Johnson knocked him out with little or no effort.

They were betting 3 to 1 on Demp-sey, that first time. Tunney was not conceded an, outside chance even by the promoter. Yet Tunney won nine out of the ten rounds."

He turned and smiled slowly. "So you see, I'm not worrying much when the experts rate me a 3 to 1 chance. I have had six hard fights in the past sport, who must face this relentless. Gibraltar-like fighting machine, bell after bell, for 15 rounds.

For Thomas Heeney burns with a purpose. The flame of ambition consumes him with an almost fanatical glow. It is the one thing that stands out above everything else.

He well realizes what a heavy burden he carries on his stocky shoulders, does this hardy son of a New Zealand blacksmith. It is the big opportunity of his life. He has fought for it, he has starved for it for one long decade, and he does not intend to treat the occasion lightly.

The same philosophy might be applied to a heavyweight championship. Tunney figures to beat Heeney, but when a fighter has turned in the job that Heeney has completed up to date the challenger doesn't figure to be rated as any rank outsider without a chance.

A big, tough entry, with his share of courage and his share of experience, always has a chance.

Heeney's Best Card.

Heeney is a fair boxer, but no part of a ring general. He has been a light hitter, so far as results have shown in action.

A game guy is always hard to whip. A few years ago Bill Roper, kept hammering into a Princeton team that looked to be only fair, the old war cry: "A team that won't be beaten, can't be heaten." Princeton beat at least two better teams that year. The thing about Heeney is not so "Believe me, you have a great" "Believe me, you have a great."

"Believe me, you have a great chance, and if you have improved any way as you should have in a lapse of four years, there is no reason why you shouldn't be the next champion," Gib-

No one else has been able to annoy the Hard Rock from the other side of the planet. Anyone who can knock him down or knock him out is far from being any spongy hitter. Heeney will face more punishment than he has absorbed so far. Espe-cially about the head. Lute Roy Holds Crackers Scoreless While Teammates Are Hitting Plenty.

pitching requisites and uncorked perhaps the finest performance of the
year here in earning his twelfth victory as against five defeats. Of the
three singles gleaned by the Crackers
only two were clean hits. The first

the seventh, was the veriest kind of

slowly but high over Roy's head just
beyond reach of his glove as he leaped beyond reach of his glove as he leaped after it. Johnston and Smith came in fast and the latter made a neat by an eyelash. And Roy's no-hit hopes if he had been thinking of such were shattered. Gilbert made his way on around to third on infield outs but Rhiel rolled to Johnston the third the beat with the ston for the third death with the plate still untouched by an alien

The second hit off Roy, a line single to left center by Jones, came in the eighth with one down. It was the eighth with one down. It was put to naught when Roy caused Angley to roll to Stewart, who started a double play that retired the side. After Brock, batting for Yeargin, had made the first out in the ninth. Zoeller plunked a drive into center for the third Cracker hit. Zoeller was promptly forced at second by Gilbert who in turn died similarly at the hands of Poole with Cullop hoisting a high one to Smith for the last out. From Zoeller's walk to Gilbert's hit in the seventhe eighteen Cracker outs came in order including the two forces at second base in the first inning. The side went out as it came up from the second through the sixth. Although the Baronial infield was on its toes all the way nothing spectacular in the Baronial infield was on its toes all the way nothing spectacular in the way of support was required by Roy. Johnston, Smith and Stewart handled less style. No doubt giving Roy added confidence as he mowed down the visiting fellows. But none of them was required to rise to the heights in taking care of the Atlanta attempts at batting.

Slow to Start.

It took the Barons four innings themselves to do anything in the matter of runs. For three innings old Tom Rogers was pitching on a par with Roy with a lone hit in the third being nullified by a double play. But in the fourth the boys got busy although Rogers himself put the finishing touches on the first run after Stowart's single his subsequent stolen.

touches on the first run after Stewart's single, his subsequent stolen base and Johnston's sacrifice had put the potential scorer on third. With the potential scorer on third. With Bigelow itching to bat in the tally Rogers lost control of a would-be slow one, the ball floating high and wide past Angley and permitting Stewart to come home. Bigelow then rolled out, but screaming triples to opposite sides of the field by Shrley and Rosenfeld in succession accounted for an additional run. Ernie Smith, whose batting was one of the highlights, he getting three hits in three official trips, renewed the assault on Rogers in the fifth. He drove the ball deep into center field for a home run. Roy flied to Cullop but Simons' single gave new life to the rally. Butch stole second and scored on Stewart's givel.

President Collom Says He Will Stand by Ruling of Net Association.

Following the usual course of events a few days before a big fight London, July 20 .- (P)-Hope that (?) the atmosphere today is so steamed up by publicity, honest criticism, the American Davis cup tennis team might have the benefit of Bill Tilden's plain bunk and ballyhoo that most of us know not what to think except redoubtable pacquet in the matches against the French defenders of the cup fled today when Samuel H. Dear old Holland is getting a thrill out of the Americans if we are to believe the wire reports from Amsterdam. They will get a bigger thrill when the Olympic competition starts—but that is not the story at hand address of President, Samuel H. The French especially are concerned in view of the almost com-plete collapse of gate receipts for the matches between the United States, without Tilden, and Italy. America's action in ruling Tilden out was held

to have "taken the life out of the Davis cup challenge round." George Lott and John Hennessey spent the entire afternoon at Roland Garros stadium practicing as if their very lives depended on the result of the matches. Lott played Vincent Richards while Hennessey met Tilden. Both of the younger members of the Davis cup team, on whose shoulders may rest the entire burden of the challenge round, were defeated. "Us professionals must stick together." Richards said jokingly, but this brought no collaborating comment

Boston, July 23.—Babe Ruth made one of the longest home runs of his wailloying carreer off Pitcher Dan MacFayden in the sixth inning today, but it failed to help the Yankees score materially and the Red Sox won, 8 to 3. Ruth's drive came with two out and none on. It cleared the high fence in center field and knifed its way through the east wind that brought the fog in off the Atlantic and made things uncomfortable for the 9,000 spectators. It was the Babe's fortieth of the season and put him searly a month ahead of his 1927 record. The Red Sox bunched hits off Shealey in the first and third innings for six runs, and off Thomas in the fourth for two more. Todt drove in four of the Boston runs and K. Williams two.

PICTURE OF LOVE AND WAR OFFERED AT METROPOLITAN

The Metropolitan this week presents "Lingerie," an entertaining story of love and war, starring Alice White and Malcolm MacGregor.

"Lingerie" opens with the wedding of the hero and his fiancee and all is bliss for the rich young man until an hour after the ceremony, when he learns that his bride married him for his money and not for love. He then joins the army and goes to France, trying to forget his sorrows and the girl who has wrecked his life.

While in France he meets another girl on the boulevards of gay Paree, and immediately falls deeper in love than ever before. Seriously wounded in battle, so that he cannot speak, hear nor move, he is deserted by all but his new found love, and two walls. his new-found love and two war-

The Uniform Small Loan Law, under which our subsidiary corporations operate, requires that the loan contract, and the chattel mortgage securing the loan, be signed by both the husband and the wife. This law limits the maximum amount that can be loaned to \$300.00. These two facts make for service and safety.

Twenty-four States now have on their statute books, either in its entirety or with slight modifications, the Uniform Small Loan Law prepared and endorsed by the Russell Sage Foundation. No State has ever repealed this law. The loan service rendered by our Subsidiary Corporations enjoys the sponsorship and support of almost every civic and social organization in America, and is becoming better known and understood by the general public from year to year. You Need Only This Preparation for Lasting Beauty

Which would you have, Milady, beauty for the moment or beauty for all time? Would you rather

hide the tell-tale marks of passing years beneath tem-porary artifices, or let Nature, herself, permanently eradicate lines, sagging skin and sallowness! If it is the

restoration or preservation of beauty that you seek, you need but one preparation—Amor Skin.

Amor Skin, a discovery by German scientists, frees you from hours at your dressing table and the ever-mounting cost of various creams, lotions, astringents, powders and other cosmetics. It is an organic preparation that penetrates beneath the outer skin of face, neck and hands and revivifies or strengthens the underlying cells that form the real foundation of beauty.

While you sleep, this wonderful preparation quietly strengthens the cells to withstand the rigors of a rush-about age or to restore the youthful contours.

Amor Skin is packaged and sealed in Germany and imported to this country only by

offense is finally ended. This scientific sanitary pad is now treated by patented* process to end all offense.

Millions of women have learned to depend on Kotex within the last ten years. It has brought them better health, greater peace of mind under trying conditions. Now comes an added advantage. Kotex chemists have discovered (and patented) a process that absolutely ends all odors. After several years of research, the one remaining problem in connection with sanitary pads is solved!

No more bulky outlines

That awful feeling of being conspicuous because of the bulkiness of oldtime methods is gone, too. Kotex pads are rounded and tapered so there is no evidence of sanitary protection when worn. You may add or remove layers of filler, as needed-a thing all women appreciate. There is a new softness, because both filler and gauze have been specially treated. Finally, Kotex is so easy to dispose of, eliminating all need of laundering.

Buy a box today, at any drug, dry goods or department store . . . 45c for a box of twelve. Supplied, also, in rest-room vending cabinets.

*Kotex is the only sanitary pad that deodor-izes by a patented process. (Patent No. 1,670,587 granted May 22, 1928.)

Deodorizes ... and 4 other important features:

1-Softer gauze ends chafing; pliable filler absorbs as no other substance can: 2-Corners are rounded and tapered; no evidence of sanitary protection under any gown;

-Deodorizes-safely, thoroughly, by a new and exclusive patented 4-Adjust it to your needs; filler may be made thinner, thicker, narrower as required;

5-It is easily disposed of; no unpleasant laundry.

"Amazing—so many women must learn this from others"

WHERE smart women gather so-cially-or in business-even the most attractive are guilty of offending others at certain times. Yet they, them-selves, seldom realize it. When told, they become miserably self conscious. They try in vain to overcome the difficulty by make-shift methods. Now science offers safe and certain relief

Tom Heeney's bid for the heavyweight championship Thursday night will be heard by his New Zealand countrymen via WGY's short wave stations. Just as Germany heard Gotham's welcome to the German aviators several weeks ago, so will the South Sea islands and beyond Tunney and Heeney trade leather.

Word from New Zealand is that everyone there is keen about the fight. The broadcast from New York at 8 p. m. Thursday, central standard time, will be received in New Zealand at 3 p. m., the day following, This is due to the change in time between the two places and the fact that the international date line in the Pacific sets that part of the world a day ahead while the sun is catching up.

A South African station, in time past, rebroadcast the Dempsey-Carpentier fight and a Sydney, Australia station rebroadcast the first Dempsey of WGY's station. And it is expected that New Zealand papers will have extras on the streets just as soon as Mrs. Ira Farmer and Miss Helen Farmer left Monday for Brunswick, where they will spend a week on the because of radio.

He had been carried away by Farmer Brown's Boy. Little Mrs. Peter had been hiding very close by when Farmer Brown's Boy had come and taken up the boxtrap in which Whitey had been caught. Poor Little Mrs. Peter! She had watched from the edge of the dear Old Briar-patch until Farm-er Brown's Boy had disappeared in the distance. What was to become of her beautiful little white-coated

When she told Peter Rabbit what when she told Feter Rabbit what had happened, Peter wasn't nearly so worried. "It's all right, Fuzzy," said he. "You ought to know Farmer Brown's Boy well enough by this time to know that he will not harm been harmed in the least. All have been prisoners of kindness. If this little rascal of ours had obeyed, this wouldn't have happened. The first dark night I will slip up to Farmer Brown's dooryard and find out about Whitey. I'm sure I'll find him there safe and happy."

This consoled Little Mrs. Peter somewhat, but not altogether. Mothers are like that. She still imagined

Washington, D. C., July 23.—A o'clock over WSB. our-fold basis for reallocating the Brannon Lesene has returned to his radio broadcasting system was out-home in Mobile for the summer. He lined in a statement by Orestes with "My Garden of Melody," sung H. Caldwell, of New York, member by the quartet, and before of the Federal Radio commission, representing the first zone of New England and eastern seaboard states. Good radio reception, equal radio facilities include "Kentucky Babe," quartet, and before the property of the four singing "Can't You Hear Me Calling, Caroline." Other numbers will include "Kentucky Babe," quartet: "Who Knows," violin solo: radio reception, equal radio facilities for each zone, provision for local stations and a minimum disturbance of popular stations are given as the parameter of the provision in the wildwood," quartet, and "Mandy Lee," quartet.

Mr. Caldwell's statement is presented as an expression of his personal views, and not the views of the whole commission. But it lends a clue to the general nature of the allocation plan being formulated by the commission's subcommittee composed of Commissioner Caldwell and Comm Commissioner Caldwell and Commis-sioner Samuel Pickard, representing the fourth zone of middle western

Tom Heeney's bid for the heavyweight championship Thursday night will be heard by his New Zealand countrymen via WGY's short wave stations. Just as Germany heard Gotham's welcome to the German aviators several weeks ago, so will the South Sea islands and beyond hear Tunney and Heeney trade leather.

Word from New Zealand is that everyone there is keen about the fight. The broadcast from New York at 8 p. m. Thursday, central standard time, will be received in New Zealand at 3 p. m., the day following, This is due to the change in time between the two places and the fact that the international date line in the Pacific sets that part of the world a day ahead while the sun is catching up.

Pitcairn Aviation, Inc., of Phila-delphia, has purchased a "flying of-fice" which will be used when oc-casion demands by executives of the company who are traveling over the New York to Atlanta airmail line, it was learned here Monday from local officials of the company.

The flying office is a cabin mono-plane built by the Fairchild Aviation corporation, of New York, and has just been delivered at that company's factory in Farmingdale, L. I., to Walter J. Shaffer, manager of Pitcairn field, Hallowell, Pa., who will fly the plane back to Philadelphia.

The new plane is the same type as that in which John Henry Mears and Charles B. C. Collyer flew on their round-the-world trip. The cabin is fitted with seats for four passengers and a pilot, is completely upholstered and a pilot, is completely upholstered like a luxurious automobile and is fitted with dome lights so passengers can read at night. The engine is a Wright Whirlwind, J-5, the type made famous by trans-oceanic fliers. The wings and fuselage are painted in the standard black and gold colors of Pitcairn Aviation, Inc., and the com-pany's emblem is painted on the side. The walls, ceiling and floor of the abin are insulated against the heat mer or the cold of winter and gainst the noise of the engine, by a ining of balsam wool. -Mrs. Peter Rabbit.

Whitey had disappeared from the dear Old Briar-patch. His mother, Little Mrs. Peter Rabbit, knew what had become of him. He had been carried away by Farmer Brown's Boy. Little Mrs. Peter had been hiding very close by when Farmer Brown's Boy had come and taken the dear Old Briar-patch until Farm

had happened. Peter wasn't nearly so worried. "It's all right, Fuzzy," said he. "You ought to know Farmer Brown's Boy well enough by this time to know that he will not harm the little rascal. A lot of the little people of the Green Meadows and the Green Forest have been taken prisoners by Farmer Brown's Boy, and you know that not one has ever been harmed in the least. All have been prisoners of kindness. If this little rascal of ours had obeyed, this wouldn't have happened. The first dark night I will slip up to Farmer Brown's dooryard and find out about

Whitey. I'm sure I'll find him there safe and happy."

This consoled Little Mrs. Peter somewhat, but not altogether. Mothers are like that. She still imagined all sorts of dreadful things. All that Peter had said might be true. Then again it might not be true. She inquired Mrs. Peter. again it might not be true. She spent a great deal of time sitting at the edge of the dear Old Briarpatch nearest to Farmer Brown's. New York, July 23.—The market was quiet again today but this did not prevent good stocks from going shead. There are a certain number of issues that are individually in such a strong position that they are able to move practically regardless for the time being of duliness elsewhere. They are stocks more desirable for investment than for speculation and while the average trader is reducing to follow these moves on the basis of being "too slow," they are proving the fastest on the list. FENNER AND BEANE.

New York, July 23.—Values slipped about a dollar a bale at one time today but recovered most of the losses in the late trading. The decline was due to selling and liquidation induced by general rains in northwest and threat of a lockout at Manchester. Good trade buying developed on the declines, absorbing the offerings at times and forcing short sellers to cover. The rallies were probably due more to trade buying than to covering by shorts. Hedging was also in evidence but was of small proportion.

ORVIS BROS. & CO.

New York, July 23.—Rain in northweat, west and central Texas has certainly broken the drought in a large part of that territory but details received so far indicate it is not thoroughly or entirely broken. At Lubbock, for instance, the total rain reported over Sunday and Monday was 3.84 inches; Amerillo reported over three inches; Memphis had over two inches; Abilene had only .14 inch and Quanah only .22. This would show that the precipitation was extremely spotted as to volume and really means that a part of the territory received only showers which does not relieve the drought.

HUBBARD BROS. & CO.

New York, July 23.—Heavy quotations on the opening on general rains over the weekend in west Texas were readily absorbed, the market steadying around Saturday's closing price. Major Clarence M. Young, head of the governmental air regulations bureau in Washington, approved of Swanee Taylor's plans in all but one respect. The department of commerce frowns on such hazardous performances as persons making transfer from an automobile to a plane in flight, and therefore denied permission for Miss Mabel Cody to make such transfer at the meet. "Changing from autoto plane," said Major Young in his telegram to Mr. Taylor, "is in the category of aerobatic flying. It has no place in aviation and is serious violation of air commerce regulations."

Major Young expressed regret that both he and his chief, William P. McCracken, would be in the west during the performance dates. However, the department of commerce will be represented by Leo C. Wilson and his staff. All rules and regulations will be strictly enforced. both on the

Common Stock (no par value) 600,000 shs. 600,000 shs. The Company has no Bonds, Mortgages or Preferred Stock outstanding.

Mr. Geo. McNeir, Chairman of the Board of Directors, summarizes his letter to us as follows: HISTORY AND BUSINESS

Mohawk Carpet Mills, Inc. was incorporated under the laws of New York in 1920 as a consolidation of Shuttleworth Bros. Co., established in 1885, and McCleary, Wallin & Crouse, formed in 1886. It is one of the largest of the five leading companies which account for over two-thirds of the sales of the American carpet and rug industry and is the only company which produces all five important types of American made rugs and carpets. Mohawk rugs and carpets are advertised nationally. The plants, located at Amsterdam, N. Y., normally employ 4,600 and have shown a steady growth since 1902, requiring the addition of over fortynine new mills or units, the capital cost thereof having been provided out of earnings.

ASSETS

Balance Sheet as at December 31, 1927, as certified by Messrs. Peat, Marwick, Mitchell & Co., showed a ratio of Current Assets to Current Liabilities of over 11 to 1 and Net Quick Assets of \$10,520,881. Plants less depreciation were carried at approximately \$2,000,000 less than sound value as of December 31. 1926, as determined by The American Appraisal Company, Inc. Net Tangible Assets, before deducting reserve for contingencies, as shown on the Company's books, were over \$38 per share of Common Stock without placing any value on the Company's patents and good-will. As of June 30, 1928, Cash and Call Loans were \$1,022,233 compared with Current Liabilities of \$964,905 and Net Quick Assets (Company figures) were over \$11,000,000.

Mohawk Carpet Mills, Inc. and its predecessor companies never have had an unprofitable year since their incorporation in 1902. From 1902 to the close of 1927,

on an original paid in capital of \$600,000, later increased to \$1,175,000, Mohawk Carpet Mills, Inc. and its predecessor companies have paid out \$12,276,000 in cash dividends besides \$13,825,000 in stock dividends and have added over \$7,600,000 to surplus. Earnings after Federal Income Taxes for the past five years have averaged \$2,510,747 and for 1927 were \$2,619,819, equivalent to \$4.36 a share. Sales and earnings for each of the past seven years, as certified by Public Accountants, have been as follows:

Net Sales 1921 \$ 8,493,516 \$ 963,209 1922 17,072,589 3.888.903 1923 19,668,985 4,478,305 1924 14,426,703 1,636,903 1925 18,540,970 2,575,635 1926 18,334,911 1.243.077 1927..... 18,367,900 2,619,819

Earnings for 1926 were after an inventory write-off of \$418,682 caused by the decline in the wool market. Sales for the first five months of 1928, as shown by the Company's books, were \$8,176,321, compared with \$7,858,002 for the same period a year ago, and net earnings before taxes (Company figures) were \$782,256.

Chinese nationalists have criticized the old treaties between China and the powers. Their abrogation has been one of the main issues upon which the nationalist regime built up its strength. These treaties, dating from about 1840 placed many restrictions upon China, the most offensive to the Chinese being the privileges of extraterritoriality by which American nationals had the privilege of carrying all litigation which involved them into American courts set up in China and presided over by American judges appointed in Washington.

Beauty and health go hand in hand, the acquisition of beauty must begin with the acquisition of health, soft skins, fair complexions, beautiful hair and rounded forms are rarely possible with weak and sickly bodies. Health is the only true and lasting foundation upon which physical beauty can be built. Reduce your weight, rid yourself of that double chin or enlarged stomach; learn to exercise properly, stimulate blood circulation, aid digestion, get that healthy glow and sparkle in your eyes, get physically fit, have your friends admire your appearance.
